The representatives of the City and the Union shall provide each other with advance notice, as is reasonable under the circumstances on all matters of importance in the administration of the terms of the labor agreement, including the changes or innovations effecting the relations between the parties.

**ARTICLE 1**  
**RECOGNITION**

**Section 2.** The employer agrees not to enter into any agreements or contracts with its employees covered by this Agreement, or to individually or collectively negotiate or bargain with them. There shall be no individual agreements with employees covered by this Agreement and any such agreements or contracts shall be null and void.

**ARTICLE 6**  
**DUTIES**

**Section 1.** The duties of the members of the Central Falls Fire Department shall consist of: the protection of life and property; the prevention, control and extinguishment of fire; emergency medical services and hazardous materials responses; the enforcement of all laws and regulations related to fire prevention and public health and safety; such other auxiliary, administrative and service functions as presently performed as may be necessary or advisable for the public safety and welfare of its citizens.

A. Determination of Disability Status

The determination of disability from any cause, whether service connected or non-service connected, shall be made upon the basis of reports on examinations made by three (3) physicians consisting of the treating physician, a physician selected by the City, and a third physician to be selected by the other two (2) physicians. A majority decision by the selected physicians must be

reached with regard to (a) determination of disability, and (b) whether the disability is total and permanent, or partial and permanent. The member shall be provided a written determination of the decision within sixty (60) days after the date that the City has received all three (3) physicians' reports.

For the purposes of this agreement, total and permanent disability shall be determined by the City using the same standard for determining disability status as utilized by Social Security. For the purposes of this Agreement, presumptive total and permanent disability shall include but not be limited to:

- \* Amputation of the leg at the hip
- \* Complete deafness
- \* Complete blindness
- \* Confinement to bed because of a long-standing condition
- \* Confinement to a wheelchair due to a long-standing condition
- \* Being in hospice care
- \* Spinal injuries which have resulted in an inability to walk

For the purposes of this Agreement, the term "partially permanently disabled" shall mean that the member who is disabled can no longer perform his or her duties as a firefighter based upon his or her employment with the City, but who has not been determined to be totally disabled from all gainful employment, based upon age, education, or impairment.

B. Service Connected Disability

(1) A member incurring disability resulting from an act of duty and determined to be totally and permanently disabled, shall be entitled to a service connected disability pension equal to sixty-six and two thirds percent (66 2/3 %) pay of the salary including longevity and holiday pay of the rank held at the time of his disability for life. A member who is determined to be totally

and permanently disabled under this provision shall not be subject to the recertification procedures or income offset procedures set forth in this Agreement.

(2) A member incurring a disability resulting from an act of duty and determined to be partially and permanently disabled, shall be entitled to a service connected disability pension that shall be fifty percent (50%) of the salary including longevity and holiday pay of the rank held at the time of his disability until he reaches full Social Security retirement age. Upon reaching his/her full Social Security retirement age, he/she shall be placed on a regular pension. The member shall then be entitled to receive the higher of either his normal retirement benefit at the time of being found disabled or a pension benefit in the amount of twenty-five (25) percent of the salary (including longevity and holiday pay) of the rank held at the time of his or her disability.

(3) A member who is determined to have a disability resulting from an act of duty, whether determined to be total or partially disabled, shall not have his pension benefit reduced by the early retirement factor as set forth in Section 1 of this Article.

C. Non-Service Connected Disability

(1) A member of the fire department who has been determined to be totally and permanently disabled, as defined in Article XX, Section 2(A), as a result of a non-service connected injury or disease shall be entitled to receive a pension of fifty percent (50%) of his or her highest salary including longevity and holiday pay of the rank held at the time of his disability.

(2) A member of the fire department who has been determined to be partially and permanently disabled shall be entitled to receive a pension of two percent (2%) of his or her highest salary at the time of disability per year of credited service with the fire department.

(3) A member of the fire department shall only be entitled to a non-service connected disability pension provided he or she has completed five (5) years of credited service with the fire department. If a member has not completed five (5) years of credited service with the fire department he will be terminated and any contributions made to the City pension plan shall be returned with interest.

(4) A member who applies for a non-service connected disability, whether said disability is determined to be total or partial, shall have his pension benefit reduced by the early retirement factor set forth in Section 1 of this Article if he or she elects to receive pension benefits prior to attaining age fifty-three (53).

D. Recertification of Disability

(1) A member of the fire department who has been determined to be partially disabled, whether service connected or non-service connected, shall be required to submit to an examination at least one (1) time per year for a period of not more than four (4) years from the date the member is placed on disability by a physician appointed by the City to establish that the member remains incapacitated for service as a firefighter and is entitled to continue to receive a disability pension. In the event a physician specifically recommends re-examination on a more frequent basis, the City may conduct a second examination within the year, but in no event shall it be more than two examinations per year. The member has the option to be evaluated by his treating physician, if he does not agree with the medical opinion of the City's physician. If the physician chosen by the City and the member's treating physician disagree, they shall both select a third physician whose decision shall be binding by both parties. The City shall cancel a disability pension upon evidence

that the member is no longer disabled for such service in accordance with the above procedures. Neither party will engage in “doctor shopping.”

(2) The disability pension presently being received by the member will be reduced to fifty percent (50%) of the prior disability benefit or the member may elect to revert his benefit to a normal retirement benefit, based upon a two percent (2%) accrual rate for each year of credited service prior to his disability, reduced by the early retirement factor set forth in Section 1 of this Article for each year the member elects to receive benefit prior to attaining age fifty-three (53).

(3) If the member elects to no longer receive any form of pension benefit from the City, the member may elect to receive a refund of the excess, if any, of the contributions made by the member, including interest, over the amounts received by the member on the disability pension.

(4) Should a retiree refuse to submit to such medical examination, his or her pension may be suspended until his or her withdrawal of such refusal, and should his or her refusal continue for one (1) year, all rights to his or her pension may be suspended indefinitely by the City.

(5) Should a retired employee receive a disability pension again become an active employee for the City, his/her disability retirement pension shall cease and he/she shall immediately become a member of the retirement system as of the date of his/her reemployment. His/her creditable service at the time of his/her disability retirement shall be restored in full force and effect. Reentry into service shall be at the direction of the City.

E. Outside Income Offset

(1) Any member receiving a disability pension, whether service connected or non-service connected, shall be required to submit to the City at least once a year a sworn written report

of his/her earned income for the preceding twelve (12) months on a form supplied by the City, together with supporting data as may reasonably be required. Any adjustment in disability pension payments shall be based upon such statements of income.

(2) Earned income is defined as amounts received as compensation for services rendered. The member's pension amount for the following twelve (12) months after the filing of the report of earned income shall be reduced dollar for dollar by any amount the actual earned income when added to the disability pension benefit, exceeded the salary paid including holiday and longevity pay to a permanent member with the same rank and seniority on active duty at the time such reports are filed.

### **Section 3. Cost of Living Adjustment**

All retired members shall receive a two percent (2%) non-compounding cost of living increase to his/her pension. Cost of living adjustments shall be made effective July 1 following a member's retirement date and every July 1 thereafter.
