Project Site:
Central Falls Police Department
160 Illinois Street
Central Falls, Rhode Island 02863
401-727-7411x2560

Scope of Work

I. The Equipment and Material:

Maintenance Agreement for Non Monitored Intrusion System

- 1 Bosch Control Panel
- 5 Door Sensors
- 5 PIR
- All Pop-its, batteries that complete the system

II. Installation:

The installation services included in this proposal are all encompassing and are sufficient for the complete installation as described on Schedules "B" and "C". Installation is to be done during normal business hours. Work shall begin and finish in one complete continuous effort. There is no planned phased delivery for this project. After hour access shall be provided if requested and coordinated in advance. Installation price is based on free air cabling and a construction environment composed of mainly lift out ceiling (10ft max. height), and hollow walls.

Specific exceptions to the required Installation above are as follows:

Because permits and compliance fees vary considerably from area, they have been excluded from this proposal. Permits and compliance fees for this project will be billed under separate cover once the fees have been identified.

[Note any exceptions such as afterhours work required, phased delivery, weekly job meeting, major construction time schedule, or any Union labor requirements.]

Additional installation time required to complete the work beyond the quantities stated may be subject to charge if sufficient access cannot be reasonably coordinated, if phased delivery is required, or if work by others is not complete and causes unforeseen delays.

III. Work by Others:

The following work is the responsibilities of others and is required to be complete and in place before Diebold begins the installation:

1. Power
2. Conduit and stub ups
3. Network connections
4. IP Addresses
5. Core Drilling
6. Environmental
7. Fire Alarm Interface
8. Fire Stopping
9. Lift rental
10. Painting and patching
11. [Other]

IV. Training and Turn Over:

The customer shall be available for training, turn over and acceptance immediately after the project is complete. Should there be any punch list items they shall be established at this time.

V. Services:

All services including monitoring, maintenance and enhanced managed services are to be provided as described in the attached Schedule of Services.

VI. Sequence of Operations:

[List here any exceptional or custom operating parameters if any such as opening and closing procedures etc.]

Schedule of Installation
