INDEPENDENT AUDITORS' REPORT

City of Central Falls
Central Falls, Rhode Island

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Central Falls, Rhode Island as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the accompanying table of contents to this report. These basic financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Central Falls, Rhode Island as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the City of Central Falls will continue as a going concern. As described in Note 15, on May 19, 2010 the City filed a Petition for Appointment of Receiver with the Superior Court of the State of Rhode Island (the State) citing fiscal insolvency due to revenue shortfalls, state budget cuts, and unaffordable collective bargaining agreements and pension obligations. On June 11, 2010, the Rhode Island General Assembly passed "An Act Relating to Cities and Towns-Providing Financial Stability" (the Act) which provides for State intervention in the finances of municipalities in fiscal distress. In response to the Act, the City negotiated a Consent Order with the State and withdrew its petition with the Court. On July 16, 2010, in accordance with the terms of the Act, the State's Director of the Department of Revenue appointed a Receiver with the authority to exercise any function or power of any municipal officer of the City. The City's receivership, the recurring operating deficits, deficit fund balance, unfunded pension liabilities and unfunded other post-employment benefits raise substantial doubt about its ability to continue as a going concern. The Receiver's plans regarding these matters also are described in Note 15 to the financial statements. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Management's Discussion and Analysis, Schedule of Funding Progress for Pension Plan, and Budgetary Comparison Schedule for the General Fund on pages 3 through 10 and 43 through 50 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with Government Auditing Standards, we have also issued our report dated February 16, 2011 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Central Falls, Rhode Island's basic financial statements. The Combining and Individual Fund Financial Statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Combining and Individual Fund Financial Statements has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

Fiscal Year Ended June 30, 2010

This discussion and analysis of the City of Central Falls financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2010. This is the City's eighth (8th) year reporting in accordance with the provisions of GASB Statement No. 34. Please read this document in conjunction with the accompanying basic financial statements and the accompanying notes to those financial statements.

Financial Highlights

The auditor's report for 2010 expresses an unqualified (i.e. "clean") opinion on the financial statements of the City of Central Falls. The City's basic financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City.

The Government-Wide Statement of Net Assets indicates that the City's total net assets worsened for the third consecutive year to a negative \$22,044,762, reflecting a decrease of \$5,177,943 over FY2009.

The Government-Wide Statement of Activities indicates that the City's total general revenues of \$15,145,136 combined with additional program revenues of \$3,756,847 less program expenses of \$24,079,926, resulted in a decrease of \$5,177,943 in total net assets from a year ago.

The Governmental Fund Financial Statements indicate that the ending fund balance for the City's general fund was a deficit of \$2,111,785, reflecting a decrease of \$2,342,595 to the FY2009 fund balance.

The Financial Statements

The financial statements presented herein include all the activities of the City of Central Falls using the integrated approach as prescribed by GASB Statement No. 34.

The Government-Wide Financial Statements present the financial picture of the City of Central Falls from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the City of Central Falls as well as all liabilities (including long term debt). Additionally, certain eliminations have occurred as prescribed by the statement about interfund activity, payables and receivables.

The Fund Financial Statements include statements for each of the two categories of activities - governmental and fiduciary. The governmental activities are prepared using the current financial resources measurement focus and modified accrual basis of accounting. The fiduciary activities are reported in the City's trust and agency funds. Agency funds, unlike the City's pension trust funds, do not have a measurement focus and only require a balance sheet. Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

Overview of the Financial Statements Government-Wide Financial Statements

The Statement of Net Assets and the Statement of Activities

The Statement of Net Assets and the Statement of Activities report information about the City of Central Falls as a whole and about its activities. These statements include all assets and liabilities of the City using the accrual basis of accounting, which is similar to the accounting used by most companies in the private-sector. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid.

These two statements report the City's net assets and changes in them. Net assets are the difference between assets and liabilities, which is one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are indicators of whether the City's financial health is improving or deteriorating.

GASB Statement No. 34 defines the accounting terms found in the Statement of Net Assets and the Statement of Activities as follows:

Governmental Activities

This category identifies the costs of City's various functions/programs in providing services to the public (i.e. general government, public safety, public works, etc.). The City's aggregate costs of providing these services are then offset by the state, federal and private grants, which provide additional funds that serve to reduce the City's costs of providing these same services.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the reporting entity as a whole. Although some funds are established by local ordinance, management often creates other funds to help control and manage certain revenues, grants and other sources of funds. These funds are generally earmarked for specific purposes and management must be able to demonstrate that it is meeting certain legal responsibilities often required by the provider.

Governmental Funds

Most of the City's services are reported on governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted into cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps determine whether there are greater or fewer financial resources that can be spent in the near future to finance the City's programs. The differences of results in the Governmental Fund financial statements compared to those in the Government-Wide financial statements are explained in the reconciliation schedule following the Governmental Fund financial statements.

Proprietary Funds

Business-like activities, such as providing water or sewer services, to the general public are done so through enterprise funds, which are financed primarily by user charges. The City of Central Falls has no enterprise funds. Services of this type have historically been provided to Central Falls residents through regional boards and commissions located outside of the City.

At one time all account transaction activity pertaining to the City's workers compensation claims was recorded in an internal service fund. The City of Central Falls no longer has any internal service funds, since insurance coverage is now purchased annually from a private insurer and the City no longer self-insures.

Fiduciary Funds

The City of Central Falls is the trustee, or fiduciary, for certain funds held on behalf of the beneficiaries. The City's fiduciary activities are reported in separate Statements of Fiduciary Net Assets. These activities are excluded from the City's Government-Wide Financial Statements, because the City cannot use these assets to finance operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Notes to Financial Statements

The notes provide additional information that is essential to a complete understanding of the data provided in the Government-Wide and Governmental Fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as, the City's progress in funding its obligation to provide pension benefits to its employees and budgetary comparison schedules for the general fund.

Government-Wide Financial Analysis

In this, the eighth (8th) year of implementation of the provisions of GASB Statement No. 34, the City continues to provide certain disclosures and compares them to prior year financial statements. In the sections that follow, a comparative analysis is provided between current year and prior year information.

As noted earlier, the total net assets for the City of Central Falls have decreased by \$5,177,943 over the prior year's balance. This decrease is first identified in the change in net assets as recorded in the Statement of Activities and then flows through the Statement of Net Assets. Program expenses by function, general revenues by major source, excess and/or deficiency of revenues over expenses and total assets are presented in the Statement of Activities and Changes in Net Assets.

Net assets for the City of Central Falls for the fiscal year ended June 30, 2010 were:

	Net Assets

Total Net Assets	\$ (22,044,762)	\$ (16,866,819)

This year the City of Central Falls continues to report positive balances in two (2) areas of net assets. Invested in capital assets, net of related debt amounts is the amount of \$9,187,618 and restricted net assets amount to \$7,175,375. The negative balance of \$38,407,767 in unrestricted net assets is mostly attributable to the City's net pension obligation of \$27,318,891 in the Police and Fire Private Pension Plan (John Hancock) and other post employment benefits (health insurance) for retired employees, \$1,453,547.

As indicated in the Statement of Activities, the total cost of governmental activities for the year ended June 30, 2010 was \$24,079,926. This amount was substantially offset, in that some of the costs (i.e. \$3,756,847) were paid by federal, state and private grants and entitlements.

Analysis

The total decrease in the City's general fund balance, \$2,342,595, under modified accrual was the result of the following:

Revenues from general property taxes increased by \$29,044 or .3%, as compared to the previous year. All other sources of revenues decreased, reflecting a total decrease of 10.0% or \$1,757,848. Interest and investment income decreased by \$54,331, reflecting a continuing decline in interest rates. Intergovernmental revenues received from the State of Rhode Island declined by \$722,482 or 15.9% as compared to last year, resulting from a continued decline in state aid. Local fees and non-tax income also declined by \$125,011 or 13.9%. Because the boarding up of abandoned properties program was put on hold, departmental revenues declined to \$638,195, reflecting a decrease of \$671,849 from FY2009. Other revenues indicate a substantial reduction of \$213,219 (-49.1%) in total, due to non-payment of funds from the Central Falls Prison Authority. Costs for services rendered have not yet been paid, nor do we expect payment, from the facility.

Total expenditures for the general fund in FY2010 were \$18,434,597, reflecting an increase in spending of \$224,151 or 1.2%, as compared to FY2009. As a matter of policy, the City's minimum fund balance is 5% of the general fund total operating budget.

The following table displays a comparison of revenues and expenditures "budget to actual" for the general fund, as reported on a budgetary basis and required by the City Charter.

Total	\$ 3,148,028	

It should be noted that the Central Falls School District is a component unit of the State of Rhode Island. Separately issued financial statements are prepared and may be obtained from the Rhode Island Department of Education.

Pension Trust Funds

<u>Pension Fund</u>	<u>Total Net Assets</u>	<u>Note</u>
Police/Fire (1%)	\$ 1,268,132	Established in 1925 for employees hired prior to July 1972 Police and fire employees hired after July 1, 1972
John Hancock	6,805,880	
Total	\$ 8,074,012	

Total net assets of the City's pension trust funds amount to \$8,060,477 in 2010, a decrease of \$674,075 compared to FY2009, resulting from a decrease in investments. Although the City adopted a definitive funding plan in 2007, the City has not made contributions in two (2) years, which is significantly less than the actuary's required contribution (ARC). Thus, the City continued to sell assets in the John Hancock pension fund during FY2010 to meet current obligations and pay pension benefits to recipients. According to the City's most recent actuarial studies, the combined unfunded actuarial accrued liability (UAAL) for the pension fund and post-employment benefits is \$78.6 million, including \$46.6 million for the pension fund as of June 30, 2010 (\$13.0 million for police and fire retirees hired prior to July 1972 and \$33.6 million for police and fire retirees hired after July 1, 1972) and \$32.0 million for post-employment benefits as of July 1, 2009.

Debt Administration

At year end total long-term debt for the City of Central Falls was \$53 million. The breakdown is as follows:

	2010		2009	
City's net pension obligation (NPO)	\$ 27,318,891	51.5%	\$ 24,522,605	53.1%

The City's underlying credit rating was recently reviewed by Moody's Investors Service on December 22, 2010 and Standard & Poor's Ratings Services on March 25, 2010. Moody's affirmed a B3 general obligation rating. Standard & Poor's revised their rating from CC to R, regulatory supervision.

Capital Assets

The City of Central Falls has \$25,014,520 invested in capital assets, net of depreciation. Only capitalized assets with an original cost of \$5,000 or greater, are included. The straight-line/unrecovered cost method was used to calculate annual depreciation.

Since July 1, 2001 infrastructure assets, such as sidewalks, water mains, drainage systems and road improvements, acquired by the City have been capitalized and reported within the financial statements. All pre-existing infrastructure assets (such as sidewalks, curbs, drainage systems and road improvements) have been added and began appearing in the City's financial statements for the period ending June 30, 2007.

Independent Audit

State statutes and the City Charter require an annual audit by independent certified public accountants. The accounting firm of Braver PC provided this service for the purpose of issuing basic financial statements and supplementary information for the year ended June 30, 2010. In addition to meeting the requirements set forth in state statutes, the audit is also designed to meet the requirements of the federal Single Audit Act of 1984 as amended by the Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditors' reports related specifically to the single audit are contained in a separate document.

Receivership

On May 19, 2010 the City filed a Petition for Appointment of Receiver with the Rhode Island Superior Court citing fiscal insolvency due to revenue shortfalls and state budget cuts, along with unaffordable collective bargaining agreements and pension obligations. On the same day, a Superior Court judge appointed Jonathan Savage, Esq. as temporary receiver of the City with oversight over all of the City's assets, effects, property and business ("Judicial Receiver").

On June 11, 2010 the State General Assembly passed Chapter 24/27 of the Public Laws of 2010 entitled "An Act Relating to Cities and Towns -- Providing Financial Stability" and codified as R.I.G.L. § 45-9-1 *et seq.* (the "Act"), providing a mechanism for State intervention in the finances of municipalities in financial distress including, but not limited to, review of such finances and possible control by the state Department of Revenue. The Act applied retroactively to May 15, 2010. In response to the Act, the City and State negotiated a Consent Order which was filed with the state Superior Court on June 18, 2010. The City withdrew its Petition for Appointment of Receiver and, in accordance with the terms of the Act, entered into a transition period during which control of the City's finances would shift from the Temporary Receiver to a non-judicial state-appointed receiver.

On July 16, 2010, the state Director of Revenue appointed retired Superior Court Judge Mark Pfeiffer, Esq. as receiver of the City (the "State Receiver"). Under the provisions of the Act, the State Receiver has the authority to exercise any function or power of any municipal officer of the City and the power to file for bankruptcy.

Acknowledgements

The preparation of this report was made possible by the conscientious efforts provided by the entire Finance staff. I appreciate their hard work and dedication throughout this endeavor.

In closing, I would like to express my appreciation to the Receiver's Office and the employees of the City, specifically, the Finance Department staff, for their collective support in conducting the financial affairs of the City of Central Falls.

Respectfully submitted,

Ellen V. Eggeman, Ed.D.
Finance Director

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Central Falls was founded in 1895. The City is governed largely under the Home Rule Charter, which was revised on June 19, 2007. In some matters, including the issuance of short and long-term debt, the City is governed by the general laws of the State of Rhode Island. The City operates under a Mayor/City Council form of Government and provides the following services as authorized by its charter: Public Safety (police, fire, traffic safety, inspections, zoning and building) Public Works (recreation, sanitation, highway and streets, engineering and building maintenance) Public Recreation, and General Administrative Services. The Central Falls School District is a component unit of the State of Rhode Island.

The City complies with generally accepted accounting principles (GAAP). Generally accepted accounting principles (GAAP) includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The City has elected not to follow subsequent private-sector guidance. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

As a general rule the effect of Inter-fund activity has been eliminated from the government-wide financial statements.

Recently Issued Accounting Standards

The following new accounting pronouncements were implemented in the year ended June 30, 2010:

- ✓ GASB Statement No. 51 – Accounting and Financial Reporting for Intangible Assets, effective for the City's fiscal year ending June 30, 2010.
- ✓ GASB Statement No. 53 – Accounting and Financial Reporting for Derivative Instruments, effective for the City's fiscal year ending June 30, 2010.

The City will adopt the following new accounting pronouncements in future years:

- ✓ GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions, effective for the City's fiscal year ending June 30, 2011.
- ✓ GASB Statement No. 57 – OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, full implementation effective for the City's fiscal year ending June 30, 2011.
- ✓ GASB Statement No. 59 – Financial Instruments Omnibus, effective for the City's fiscal year ending June 30, 2011.

The impact of these pronouncements on the City's financial statements has not been determined.

Reporting Entity

In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 14. Under GASB Statement No. 14, the financial reporting entity includes both the primary government and all of its component units. Component units are legally separate entities that meet any one of the following three tests:

Test 1 - The primary government appoints the voting majority of the board of the potential component unit and

- is able to impose its will on the potential component unit and/or
- is in a relationship of financial benefit or burden with the potential component unit;

Test 2 - The potential component unit is fiscally dependent upon the primary government; or

Test 3 - The financial statements would be misleading if data from the potential component unit were not included.

The following entity was considered for classification as a component unit for fiscal year 2010:

- Central Falls Redevelopment Agency

Although this entity meets certain criteria of the tests previously listed, it is deemed not to have separate legal status apart from the City. As a result, the financial data of the above entity has been included as non-major special revenue funds within the City's financial statements.

- Central Falls Housing Authority
- Central Falls School District
- Central Falls Detention Facility Corporation

Since these entities do not meet any one of the above three tests, they have not been included in the financial reporting entity.

Basis of Presentation

Government-wide Financial Statements

The statement of net assets and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- (b) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally or administratively restricted to expenditures for certain purposes.

Capital Project Funds

Capital Project Funds are used to account for resources restricted for the acquisition or construction of specific capital projects or items.

Permanent Funds

The Permanent Funds account for assets held by the City pursuant to trust agreements. The principle portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund.

Proprietary Funds

Proprietary funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

Fiduciary Funds (Not included in government wide statements)

Agency Funds

Agency funds account for assets held by the City in a purely custodial capacity. The reporting entity includes two agency funds. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations. The agency funds are as follows:

- Unclaimed Estates
- Highway clothing

Pension Trust Funds

Pension trust funds are used to account for resources legally held in trust for the payment of pension benefits.

Major and Non-Major Funds

The funds are further classified as major or non-major as follows:

	<u>Fund</u>	<u>Brief Description</u>
Major:		
	General:	See above for description
	Capital:	School Construction
	Special Revenue:	Channel One
	Proprietary Fund:	See above for description
Non-Major:

Measurement Focus

On the government-wide Statement of Net Assets and the Statement of Activities both governmental and business-like activities are presented using the economic resources measurement focus as defined in item (b) below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- (a) All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The City considers property taxes as available if they are collected within 60 days after year end.
- (b) The proprietary fund and pension trust funds utilize "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Fund equity is classified as net assets.
- (c) Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds, agency funds, and private purpose trust funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Amounts reported as program revenues include charges to customers or applicants for goods, services or privileges provided and operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal operation.

Budgets

Budgets are adopted in accordance with Home Rule Charter requirements. Annual appropriated budgets are adopted for the general fund. Generally annual appropriations lapse at fiscal years end. Project-length financial plans are adopted for all capital projects funds.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances outstanding at years end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent years.

Assets, Liabilities, and Fund Equity

Cash

Cash and cash equivalents are carried at cost. Cash equivalents are all highly liquid investments with a maturity of three months or less when purchased. Substantially, all of the City's cash and cash equivalents are held in public deposit institutions, except for \$1,300 in unsecured petty cash.

Investments

The City invests in various types of investments, which are stated at fair value. There are no investments reported at amortized cost. State statutes authorize the City to invest in obligations of the U. S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Accounts Receivable

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. The allowance for uncollectible property taxes amounted to 711,480 at June 30, 2010. Major receivable balances for the governmental activities include property taxes (94% of balance) and other receivables (6% of balance).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounts Receivable (Continued)

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Accounts Payable

Payable balances consist primarily of payables to vendors.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

Property Taxes

The City is permitted by State Law to levy property taxes. The City's property taxes are levied on July 1 on assessed value of property as listed on the previous December 31. Taxpayers have an option to pay quarterly installments. Property taxes attach as an enforceable lien on real and personal property as of the date of assessment. Taxes assessed on motor vehicles and trailers represent an excise tax and do not constitute a lien. Uncollected property taxes are stated at the amounts originally assessed and do not include interest or penalties which may be assessed at the time of collection. The tax rate of the city is established by the City Council. Property tax revenues are recorded in accordance with the modified accrual basis of accounting. In May 2002, the City Council passed an ordinance authorizing the levy of a non-utilization penalty tax in accordance with RI General Laws Chapter 44-5.1.

Deferred Financing costs

Deferred financing costs incurred in connection with bonds payable are amortized on the straight-line basis over the terms of the related debt.

Property, Plant and Equipment

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, Plant and Equipment (Continued)

In the government-wide financial statements, long-lived assets are accounted for as capital assets. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation.

Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of five years.

Infrastructure assets, (such as sidewalks, curbs, drainage systems, and road improvements) acquired by the City have been capitalized and reported within the financial statements.

Depreciation of all exhaustible capital assets is recorded, as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Land	Not depreciated
Construction in progress	Not depreciated
Buildings and land improvements	20 years
Motor vehicles	5 years
Equipment	5 years
Infrastructure	20 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Unearned Revenues

Funds that are received in advance of being due or receivables which will be collected and included in revenues of future fiscal years are deferred. In the general fund, unearned revenues relate to property tax receivables which are assessed on December 31.

Interfund Transactions

Interfund activity within and among the funds of the City have been classified and reported as follows:

- Reciprocal interfund activities:
 - Interfund loans are reported as interfund receivables in the lending fund and interfund payables in borrower funds.
 - Interfund services are reported as revenues in the seller fund and as expenditures or expenses in the purchasing fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund Transactions (Continued)

- Non-reciprocal interfund activities:
 - Interfund transfers are reported in governmental funds as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.
 - Interfund reimbursements are repayments from the fund responsible for particular expenditures or expenses to other funds that initially paid for them. Reimbursements are not displayed separately within the financial statements.

Interfund transfers totaled \$249,023 for the year, representing transfers to the general fund from Public Rescue (\$227,216) and Recreation School Lunch Program (\$21,807) non-major funds.

Equity Classifications

Government-Wide Statements

Equity is classified as net assets and displayed in three components:

- (a) Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- (b) Restricted net assets - Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- (c) Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements.

Compensated Absences

Employees are granted vacation and sick leave in varying amounts. Upon retirement, termination of death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their current rates of pay. The amount recorded is the unused days earned at the current rate of pay. For governmental activities the general fund is used to record this liability if it is expected to be liquidated with expendable available resources.

Reconciliation of Government-wide and Fund Financial Statements

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$53,070,273 difference are as follows:

Bonds payable	\$ 22,015,000
Net pension benefit obligation.....	27,318,891
Net other post-employment benefit obligation	1,453,547
Compensated absences	1,926,782
Claims payable	195,000
Capital lease payable.....	<u>161,053</u>
 Total.....	 <u>\$ 53,070,273</u>

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this \$327,474 difference are as follows:

Capital outlays (net of disposals).....	\$ 2,186,195
Depreciation expense	<u>(2,513,669)</u>
 Net adjustment.....	 <u>\$ (327,474)</u>

Another element of that reconciliation states that “the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.” The details of this \$6,867,572 difference are as follows:

Debt increased.....	\$(8,680,781)
Principal repayments	<u>1,813,209</u>
 Net adjustment.....	 <u>\$(6,867,572)</u>

Another element of that reconciliation states that “Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$22,259 difference are as follows:

Change in accrued interest and bond issuance costs	<u>\$22,259</u>

2. BUDGETARY AND LEGAL COMPLIANCE

Budgets

All agencies of the City submit requests for appropriation to the City's finance director. These requests include information on the past years, current year's estimates and requested appropriations for the next fiscal year.

No later than forty-five days prior to the end of the fiscal year, the Mayor submits the proposed budget for public review. The City's Council holds public hearings and may reallocate appropriations but may not add to, subtract from or change the form of the budget.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to preserve that portion of the applicable appropriation, is employed in the General Fund Budget. Open encumbrances are reported as reservations of fund balances. Encumbrances do not constitute expenditures or liabilities.

Excess of Expenditures Over Appropriations

For the year ended June 30, 2010, expenditures exceeded budget at the department level as follows:

<u>Department</u>	<u>Excess</u>
Mayor	\$ 21,174
Personnel	\$ 2,040

2. BUDGETARY AND LEGAL COMPLIANCE (Continued)

Bonds and Notes Escrow System

The Rhode Island, General Assembly, when creating the Central Falls Review Commission, authorized an escrow system to receive and hold revenues to pay bonds, notes and related interest. At June 30, 2010, the fund had a balance of \$1,710. In accordance with state law, the Central Falls Review Commission was inactivated in October 2000, after the City met the statutory requirements of: (1) completing a period of three consecutive fiscal years in which no operating deficit had been incurred; and (2) the City's total debt no longer exceeded one hundred percent (100%) of the City's revenues from its own sources.

Maximum Aggregate Indebtedness

The City's legal debt limit as set forth by Rhode Island General Law 45-12-2 is limited to three percent of total assessed property value. As of June 30, 2010, the city was in compliance with this law.

3. DEPOSITS AND INVESTMENTS

Deposits

Deposits are in various financial institutions and are carried at cost, which approximates market value. The carrying amount of deposits is separately displayed on the balance sheet as "Cash" and includes \$1,300 of petty cash.

At June 30, 2010, the carrying amount of the City's deposits was \$5,137,297 and the bank balance was \$5,410,466, of which \$1,615,148 was covered by federal depository insurance. The City has entered into collateralization agreements with various financial institutions and as a result, the remaining \$3,795,318 of the uninsured balance at June 30, 2010 was collateralized by securities held by the financial institutions and/or third parties in the name of the City.

Restricted Cash Held in Escrow

Restricted cash held in escrow of \$3,900,008 represents cash held in escrow with a bank to be used for School Construction Project,

Investments

At June 30, 2010 the City's investments totaled \$6,787,520 (including those held in Fiduciary Funds) and consisted of the following:

	<u>Fair Value</u>	<u>Interest Rate</u>	<u>Maturity</u>	<u>Rating</u>
Equity securities	\$2,166,407	n/a	n/a	n/a
Group annuity contracts	\$4,621,113	n/a	n/a	n/a

Interest Rate Risk

As noted above, the City's investments are held primarily in group annuity contracts and equity securities. These investments do not specify an interest rate rather the rate of return is dependent on operating results and economic conditions.

3. DEPOSITS AND INVESTMENTS (Continued)

Concentration of Credit Risk

At June 30, 2010 the City had a diversified portfolio and was not deemed to be concentrated in any one investment category. Although the investments were held in group annuity contracts, equity securities and corporate bonds, these investments were in a wide range of companies and various industries enabling the City to minimize its risk.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of financial institution failure, the City's deposits and/or investments may not be returned. The City does not believe that it has a significant custodial credit risk as substantially all investments securities are registered and held in the name of the City. The City also ensures that all deposits be placed in financial institutions that are FDIC insured up to \$250,000 and rated "well capitalized".

4. FIXED ASSETS

10. EMPLOYEE RETIREMENT SYSTEMS

The City participates in the statewide Municipal Employees' Retirement System of Rhode Island, an agent multiple-employer Public Employee Retirement System (PERS), which covers substantially all of the City's employees except police officers and firefighters.

The City also provides retirement benefits for police officers and firefighters through its participation in two single-employer defined pension plans, which are reported as pension trust funds.

Municipal Employees' Retirement System of Rhode Island

Plan Description

The City's defined benefit pension plan, Municipal Employee's Retirement System of the State of Rhode Island (MERS), provides retirement and disability benefits, annual cost-of-living adjustments, death and disability benefits to plan members and beneficiaries. MERS is an agent multiple-employer Public Employee Retirement System that acts as a common investment agent for participants. The Municipal Employee's Retirement System of the State of Rhode Island issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of Rhode Island Employee Retirement Board, 40 Fountain Street, Providence, RI 02903, or by accessing their website a www.ersri.org.

Funding Policy

MERS members are required to contribute 6.0% of their annual covered salary. The City is required to contribute at an actuarially determined rate; the current rate is 8.91% of annual covered payroll. The contribution requirements of plan members and the City are established annually and may be amended by State Statute.

Funded Status of Plan

The required supplementary information which follows the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Listed below are the details of the funding progress of the General Municipal Employee's Pension Plan with a valuation date of June 30, 2009, which is the most recent report available from the State who administers this plan.

Annual Pension Cost

For 2010, the City's annual pension cost of \$206,631 for MERS was equal to the City's required and actual contributions. The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age normal cost method with frozen initial liability. Significant actuarial assumptions included (a) a net investment return of 8.25 percent compounded annually, (b) projected salary increases at an annual service related component plus a 3% inflation component compounded annually, (c) 3 percent per year cost-of-living adjustments, (d) mortality rates based on the 1994 Uninsured Pensioner Mortality Table and (e) a retirement age of 60 or completion of service requirements, if later. The actuarial value of MERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. MERS unfunded actuarial accrued liability is being amortized over a closed amortization period of 30 years. As of June 30, 2007 there were 22 years remaining.

Police and Fire Private Pension Plan (John Hancock)

Plan Description

All full-time non-civilian police and fire employees are eligible and must participate in the private pension plan administered by John Hancock Financial Services, Inc., if hired after July 1, 1972. All civilian police and fire employees are covered by the MERS, noted above. The pension plan provides pension benefits, as well as disability and death benefits. A member may retire after accumulating 20 years of service with the City. Benefits vest after 5 years of service. Employees with 20 years of service are entitled to pension payments equal to 50% of their final base salary for life. They can accrue an additional 2% per year for up to 5 years and then 1% per year thereafter, not to exceed 65% for 30 years of service. The final salary is the salary of the employee during the final year of full-time employment inclusive of base wages, longevity and holiday pay. After retirement, the benefit increases by the same percentage as the salary of an active participant of the same rank.

As of June 30, 2010, employee membership data related to the pension plans is as follows:

Active membership	76
Retirees and beneficiaries	79

Pension provisions include disability and death benefits. Upon the death of a retired police officer or firefighter, 67½ percent of the benefits being paid will continue to their dependent spouse and/or children under age 18.

10. EMPLOYEE RETIREMENT PLAN (Continued)

Funding Policy

Periodic employer contributions to the pension plan are determined on an actuarial basis using the entry age normal cost method. Employees of the City are required to contribute 7% of their gross earnings to the pension plan. For the year ended June 30, 2010, employee contributions were \$277,972. The City is required to contribute at an actuarially determined rate; the current rate is 99% of annual covered payroll.

Funded Status of Plan

The required supplementary information which follows the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Listed below are the details of the funding progress of the Police and Fire Private Pension Plan with a valuation date of June 30, 2010, which is the most recent report available from the State who administers this plan.

Actuarial Value of Assets	\$ 6,516,889

Annual Pension Cost and Net Pension Obligation

For 2010, the City's annual required contribution was \$2,573,298 for the Police and Fire Pension Plan and actual employer and net pension obligation contributions were \$0. The annual required contribution includes \$727,181 of normal cost, \$185,086 of interest and \$1,661,031 of amortization of unfunded actuarial accrued liability. The required contribution was determined as part of the July 1, 2010 actuarial valuation using the entry age normal cost method. Significant actuarial assumptions included (a) a net investment return of 7.75 percent compounded annually, (b) projected salary increases of 3 percent compounded annually, (c) 2.5 percent per year cost-of-living adjustments, (d) mortality rates based on the RP-2000 mortality table projected to 2006 using scale AA with 10-year setback for disableds. and (e) retirement after the earlier of age 55 and 10 years of service or age 50 and 20 years of service. Unfunded actuarial accrued liability is being amortized using the weighted average method over a 30 year period assuming a 3 percent per year increase. As of June 30, 2010, there are 22 years remaining.

City Police and Fire Pension Fund (1%)

All police officers and firefighters of the City hired prior to 1972 who have not elected to participate in the City's Police and Fire Pension Fund are covered by a private pension plan which is a cost-sharing single employer plan. Certain retired municipal employees and former employees with vested benefits are also covered by the plan.

Plan Description

The City Police and Fire Pension Fund was established by the Public Laws of Rhode Island, 1925, and was effective for all police and firefighters hired prior to July, 1972.

As of June 30, 2010, employee membership data related to the pension plan is as follows:

Active membership	0
Retirees and beneficiaries	57

The pension plan provides pension benefits, as well as disability and death benefits. A police officer is eligible for retirement at age 65, while a firefighter may retire after accumulating 20 years of service with the City. Benefits vest after 5 years of service. Employees eligible for retirement benefits are entitled to pension payments equal to 50% of their final base salary for life. They can accrue an additional 2% per year for the next 5 years and then 1% per year for the next five years thereafter, not to exceed 65% for 30 years of service. After retirement, the benefit increases by the same percentage as the salary of an active participant of the same rank.

Funding Policy

Periodic employer contributions to the pension plan for fiscal year ended June 30, 2010 were determined on an actuarial basis using the entry age normal cost method. The normal cost is funded on a current basis. The Rhode Island 1925 law established the employee's contribution at 1% of their annual salary. The City is required to contribute at an actuarially determined rate. Total contributions made during fiscal year 2010 amounted to \$1,260,318 of which \$1,260,318 was contributed by the City and \$0 by employees.

11. POST RETIREMENT BENEFITS

Plan Description

The City's Post-Employment Medical Benefit Plan is a single-employer defined benefit postretirement health insurance program. The City provides lifetime health care and life insurance benefits to substantially all retired employees and their spouses. Health care benefits were paid to 121 employees during fiscal year June 30, 2010. These benefits are provided through three provider groups which are exclusively for retirees. Any changes to these provisions are subject to the City's approval. The plan does not issue a separate report.

Funding Policy

The City's funding policy provides for actuarially determined periodic contributions to the plans at rates that increase gradually over time so that sufficient assets will be available to pay benefits when due. Municipal retirees are required to contribute 10% of the health care cost between ages 62 to 65, and 100% of the premium prior to age 62. Police Officers and Firefighters receive free coverage at retirement. Coverage reverts to COBRA for 36 months upon death of the member, or until the spouse reaches age 65, whichever occurs first. The annual OPEB cost was determined as part of the July 1, 2009 actuarial valuation using the projected unit credit funding method. The actuarial assumptions included a 4.5% unfunded discount rate and the RP-2000 Combined Mortality Table projected to 2010 using scale AA.

The City adopted GASB 45 prospectively during fiscal year ended June 30, 2009. The available trend information is presented below.

Projections of benefits for financial reporting purposes are based on the plan and include the types of benefits provided at the time of each valuation. The actuarial assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The unfunded actuarial liability (UAAL) is amortized over a period of 30 years using the level percentage of pay over thirty years based on an open group. The UAAL was determined using the actuarial value of assets and actuarial accrued liability calculated as of the valuation date.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Examples include assumptions about employment, mortality and healthcare cost trends. Actuarial valuations are subject to continual revision as actual results are compared to past expectations and new estimates are formulated about the future.

12. COMMITMENTS AND CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City has been named, along with another municipality, in a claim involving a wrongful death. The plaintiff is seeking \$2.2 million. The City has also been named in a suit regarding the application of the tangible tax statute. The plaintiff is seeking \$300,000. The outcome of these lawsuits is not presently determinable, and accordingly has not been recorded in the accompanying financial statements.

The City is involved in various other pending suits. The outcome of these lawsuits is not presently determinable, although, in the opinion of the City's attorneys, the amount of actual or potential claims is not expected to have a material effect on the City's financial statements.

The City has entered into various agreements with an independent contractor for emergency property preservation services of abandoned and vacant properties within the City. Payment to this contractor is contingent upon the satisfaction of the City's liens against these properties. Should these liens become uncollectible, the services provided by the contractor may constitute a liability of the general fund. However, the City expects the liens to be ultimately collectible, and expects potential claims resulting from these agreements, if any, to be immaterial.

13. RISK MANAGEMENT

The City of Central Falls is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) which provides coverage for property/liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its Members. Under the participation agreement, the City is insured for a maximum of \$2,000,000 per occurrence. Settled claims resulting from these risks have not exceeded the Trust Coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage during the year ended June 30, 2010.

14. SUBSEQUENT EVENTS

On November 3, 2010 the City of Central Falls issued \$1,500,000 of tax anticipation notes with interest rate of 6.0%. These notes mature on June 30, 2011.

15. GOING CONCERN

On May 19, 2010 the City filed a Petition for Appointment of Receiver with the Superior Court of the State of Rhode Island (the State) citing fiscal insolvency due to revenue shortfalls, state budget cuts, and unaffordable collective bargaining agreements and pension obligations. On June 11, 2010, the Rhode Island General Assembly passed "An Act Relating to Cities and Towns-Providing Financial Stability" (the Act) which provides for State intervention in the finances of municipalities in fiscal distress. In response to the Act, the City negotiated a Consent Order with the State and withdrew its petition with the Court. On July 16, 2010, in accordance the terms of the Act, the State's Director of the Department of Revenue appointed a Receiver with the authority to exercise any function or power of any municipal officer of the City. The City's receivership, the recurring operating deficits, deficit fund balance, unfunded pension liabilities and unfunded other post - employment benefits raise substantial doubt about its ability to continue as a going concern. On December 14, 2010, the Receiver issued a report that, among other things, discusses the City's current financial situation and the existing structural problems that will result in projected future deficits in fiscal years 2012 through 2016, unless action is taken at the State and local level. The plan of action includes stabilizing the budget for fiscal year 2011 using a variety of methods and seeking an appropriation from the Rhode Island General Assembly to subsidize fiscal year 2012 while permanent solutions and reforms to the City's structural problems are developed and executed. The ability of the City to continue as a going concern is dependent on achieving this plan. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
